

Sinclair Broadcasting uses the public airwaves free of charge, and is obligated by law to serve the public interest. The public interest is served with a variety of view points, and since we have no direct or even indirect say in what they broadcast, the FCC has an obligation to be sure their political programming is balanced and accurate.

Sinclair, a private corporation, is making a decision which affects all of its subsidiaries to air extremely partisan, non-factual programming in advance of the election to favor one candidate. This is inappropriate use of the public airwaves, and they need to show both sides of the debate, or have their license revoked. Thank you.
